

Logical Operators

And: To combine two conditionals

```
let age = 13;
```

```
if(age >= 18 && age <= 21){  
    console.log(`Text Output Here`);  
}  
else{  
    console.log(`Text Output Here`);  
}
```

Or: To check either condition

```
let age = 13;
```

```
if(age >= 18 || age == 13){  
    console.log(`Text Output Here`);  
}  
else{  
    console.log(`Text Output Here`);  
}
```

Not: To negate a condition

```
const isSunny = false
```

```
if(!isSunny){  
    console.log(`Text Output Here`);  
}  
else{  
    console.log(`Text Output Here`);  
}
```
