

Loops

While Loops: A loop that executes while a condition is true

```
let age = 10;
```

```
while(age == 18){  
    console.log(`Text Output Here`);  
}
```

```
do{  
    console.log(`Text Output Here`);  
}while(age == 17)
```

For Loops: A loop that executes for a specific period or limited number of times

//starting at 0, as long as i is less than or equal to 20, add 3 each iteration

```
for(let i = 0; i <= 20; i+=3){  
    console.log(`Text Output Here`);  
}
```

Continue: Skip loop iteration

```
for(let i = 0; i <= 20; i+=3){  
    if(i == 13){  
        continue;  
    }  
    else{  
        console.log(`Text Output Here`);  
    }  
    console.log(`Text Output Here`);  
}
```

Break: End for loop, break;
